### IN MEMORY OF MRS. RAJAM KRISHNAMURTHY

Rajam Krishnamurthy, wife of Dr.V. Krishnamurthy was born in 1932 in Tamilnadu. As a daughter of a school teacher, education was always close to her heart. She was a learner throughout her life. She was of the view that learning is not confined to particular age and one is never too old to learn something. Her stress was on holistic education which is not restricted

just to academics but which encompasses different levels of physical, emotional, mental and spiritual development.

She believed in the concept that the human being is multi-dimensional and needs an all-round development of personality. She was particularly passionate about educating girl children and had supported many young girls and boys during her life time to secure a good education.

This school is a tribute to her life long efforts to ensure that education is accessible to all strata of society and to her belief that holistic education is a foundation that no child must be denied.

### OUR MOTTO

#### AMRUTHAM TU VIDYA(KNOWLEDGE IS ETERNAL)

Knowledge is the only weapon which destroys ignorance; it is knowledge which takes one to the highest wisdom; it is also the worthiest asset for any human being. Hence, knowledge is known as the sacred AMRUTH – **"THE DIVINE NECTAR".** 

In the ancient Indian system of education knowledge was imparted through interaction with the learned Teacher, who most probably acquired it through intuition, by being one with Nature. The knowledge that passed on to the student was not ordinary; it was the Eternal Knowledge, the one which fulfilled all the requirements for a successful life. It is possible to impart Eternal Knowledge in a present-day school, by incorporating its four main components, namely

- Preparation
- Inspiration
- Leadership
- Realisation

The system of education should **PREPARE** the student with necessary fundamentals to receive the knowledge.

It must **INSPIRE** not only the student but also the teacher to effectively involve themselves towards the goals.

The student must be guided, supported and counseled at every stage to become a **LEADER**.

The system should make the student **REALISE** his /her true potential by channelizing his/her inner urges towards an integrated personality in due course. Thus, a child educated in the above manner would be armed with knowledge, both practical and intuitive, which would make his / her life – journey fulfilling. RKPS is an edifice built on these four pillars of ancient wisdom
